

The Lunar Series™

Installation Overview for Screen Structures

- 3-step installation process
- All structure elements, panels, and hardware system provided
- All panels powdercoated on both sides
- All hardware powdercoated
- All steel powdercoated with zinc primer
- No welding or cutting required
- Detailed installation instructions provided upon purchase

STEP 1: INSTALL POSTS

Depending on the number of screen panels in your design, the appropriate number of posts and hardware are included.

Tube steel post

Attach reinforced bolt plate to footing with anchor bolts and finish concrete above bolt plate (footer, anchor bolts, and finish concrete provided by other suppliers)
