

Shriner<sup>©</sup> (SHR)

One glance at this pattern is all it takes to know exactly what it’s referencing, the age-old pattern of bricks. The first known use of bricks was in Neolithic China dating as early as 4400 B.C. Since then, generations upon generations of brick layers have taken great pride in their work and gathered in institutions and organizations around the globe, one of the most famous being the Freemasons. Shriners International is an auxiliary institution of the Freemasons, the oldest, largest, and most widely known fraternity in the world.
